Raft Island Bridge
Progress Report – 10/17/13

Pierce County

- Received Pierce County Hearings Examiner Shoreline Management project approval. No appeals were filed and project was forwarded to Washington State Department of Ecology for final sign-off. Washington State Department of Ecology has a 21 day period for final appeals and administrative process time. Anticipate receiving their final approval on October 28, 2013.
- Anticipate having the project's building permit in hand on 10/29/13.
- Trying to schedule Pierce County pre-construction conference at 3:00 pm on 10/28/13. Cannot start site work until this conference has been held.
- Utility relocation –
  - Peninsula Light engineering complete and fees paid.
  - Comcast engineering complete and fees paid (verify R.I.I.A.)
  - Century Link engineering complete and contract signed. Waiting for invoice from Century Link.
  - Work cannot start until the building permit is issued from Pierce County.
  - Quigg is coordinating on-site work.

Construction Contract - Quigg

- One of two contract originals sent to Quigg's home office (R.I.I.A. to confirm).
- Have received the performance and payment bonds and Certificate of Insurance.
- Builder's Risk policy has been issued and waiting for copy.
- Contractor's Pay Application No. 1 has been approved and forwarded to R.I.I.A. for processing payment.
